Prumnas U. Kompas No.301 Rantau Selatan

I am a fresh graduate with a degree in Information Systems from Malikussaleh University, with a strong interest in both Front-End and Back-End web development. I gained professional experience during my internship at PT Perta Arun Gas Lhokseumawe in the Human Resource Development department and was actively involved as a member of the Information Systems Student Association during my studies. I have solid technical skills in HTML, CSS, JavaScript, Vue.js, React.js, Tailwind CSS, Bootstrap, Laravel, and MySQL, along with hands-on experience in WordPress for web development. I am also proficient in using Figma and Canva for UI/UX design, experienced with Git for version control, and have a basic understanding of Python and Dart programming languages. I am a dedicated, responsible, and communicative individual who is eager to continue developing my expertise. I am currently seeking internship opportunities in Front-End or Web Development to enhance my skills and contribute to impactful projects.
